To restart numbering,

use:

```
<w:num w:numId="2">
```

```
<w:abstractNumId w:val="0"/>
```

```
<w:lvlOverride w:ilvl="0">
```

```
<w:startOverride w:val="10"/>
```

```
</w:lvlOverride>
```

```
</w:num>
```

It has to refer to the same abstractNumId.

```
<w:num w:numId="1">
```

```
<w:abstractNumId w:val="0"/>
```

```
</w:num>
```

It doesn't matter whether subsequent numbers refer to numId="1" or "2"; what appears in the document is the same.
